

UPCOMING PROGRAMS AT THE OBSERVATORY

ALL TIMES ARE EASTERN TIME. ALL PROGRAMS ARE HELD AT THE SOUTH HARRISON PARK LOCATION. PROGRAMS WILL BE CANCELLED IN THE CASE OF HAZARDOUS CONDITIONS SUCH AS SEVERE WEATHER OR SNOWY OR ICY ROADS.

- **September 9, 2017 (daytime program).** *Program begins at 10:00 am.* Come observe the sun through a safe solar filter, and learn about the sun, the seasons, and time—weather permitting. The observatory will be open rain or shine, but what we will be able to see depends on the weather.
- **October 14, 2017 (evening program).** *Program begins at dark (approximately 7:15 pm).* Come observe the stars of the night sky—weather permitting. The observatory will be open rain or shine, but what we will be able to see depends on the weather.
- **October 28, 2017 (evening program).** *Program begins at dark (approximately 7:00 pm).* Come observe the moon and stars—weather permitting. The observatory will be open rain or shine, but what we will be able to see depends on the weather.
- **November 18, 2017 (evening program).** *Program begins at approximately 7:00 pm.* Come observe the stars of the night sky—weather permitting. The observatory will be open rain or shine, but what we will be able to see depends on the weather.
